[PLACEHOLDER: Company website URL — please insert the official Acme Solutions Corp website address (e.g., www.acmesolutionscorp.com) prior to submission.]

Primary Point of Contact

[PLACEHOLDER: Full name and title of the designated primary point of contact for this proposal. Please confirm the appropriate individual prior to submission.]

Contact Email Address and Phone Number

[PLACEHOLDER: Email address and direct phone number for the primary point of contact. Please insert verified contact details prior to submission.]

Years in Business

Acme Solutions Corp is an established Software Services and Managed Services firm with a proven track record of delivering enterprise-grade technology solutions.

[PLACEHOLDER: Insert the total number of years the company has been in operation.]

Throughout our history, we have consistently served clients across diverse industries, building deep expertise in application development, systems integration, and cloud-based transformation initiatives.

Core Services and Legacy-to-Cloud Migration Expertise

Acme Solutions Corp is a full-service Software Services and Managed Services firm specializing in enterprise application development, cloud migration, systems modernization, and ongoing managed support. Our capabilities span the complete software delivery lifecycle — from initial discovery and architecture design through implementation, quality assurance, and post-go-live managed services.

Regarding legacy-to-cloud migrations specifically, Acme Solutions Corp applies a structured, phased approach organized into four disciplined phases: **Discovery & Assessment, Data Migration, Automation Setup, and User Acceptance Testing & Go-Live**. Within each phase, we combine industry-standard tooling on leading cloud platforms — including Microsoft Azure — with our proprietary runbooks and validation frameworks.

Corporate and Staff Certifications

Acme Solutions Corp holds active corporate and staff-level certifications:

- **Microsoft Gold Partner** — Reflecting demonstrated competency in Microsoft cloud and software solutions.
 - **Project Management Professional (PMP)** — Key project leadership staff hold active PMP certifications issued by the Project Management Institute (PMI).
 - **[PLACEHOLDER]** — Insert additional certifications (e.g., AWS, ISO/IEC 27001, SOC 2) here.
-

High-Level Project Schedule

The following high-level schedule reflects an anticipated project start date of **April 30, 2026**, with a final delivery deadline of **June 30, 2026**.

Phase	Duration	Start	End	Key Deliverables
Phase 1 – Discovery	2 weeks	April 30	May 13	System assessment; data inventory; project charter
Phase 2 – Data Migration	3 weeks	May 14	June 3	ETL scripts; validation reports; cloud data sets
Phase 3 – Automation Setup	2 weeks	June 4	June 17	Workflow configs; integration endpoints; runbooks
Phase 4 – UAT & Go-Live	2 weeks	June 18	June 30	Test plans; sign-off; cutover; hypercare support
