

Nexus Global Logistics

Request for Proposal (RFP)

Project Name: Cloud ERP Implementation & WMS Integration

RFP Reference Number:	NGL-2026-ERP-04
Date Issued:	April 15, 2026
Submission Deadline:	May 20, 2026, 5:00 PM EST
Issuer Contact:	Sarah Jenkins, Director of IT Procurement s.jenkins@nexusgloballogistics.com

1. Executive Summary & Project Background

Nexus Global Logistics is a mid-sized, privately held third-party logistics (3PL) and supply chain management corporation operating across North America. We process over 50,000 shipments monthly and manage multiple regional distribution centers.

Our current financial and operational workflows rely on disjointed, legacy on-premise systems that lack real-time visibility, scalability, and robust security. The objective of this RFP is to select an experienced IT consulting and implementation vendor to deploy a modern, scalable Cloud Enterprise Resource Planning (ERP) system (e.g., Microsoft Dynamics 365, NetSuite, or SAP S/4HANA Public Cloud) and seamlessly integrate it with our existing Warehouse Management System (WMS), Manhattan Active.

2. Scope of Work

The selected vendor will be responsible for end-to-end implementation, which includes:

- **Requirements Gathering & Discovery:** Comprehensive mapping of current state vs. future state processes.
- **System Configuration & Setup:** Provisioning and configuring the Cloud ERP environment to meet core financial, HR, and procurement needs.
- **Data Migration:** Secure extraction, transformation, and loading (ETL) of 10 years of historical financial data from legacy SQL databases.

- **Integration (API):** Developing a robust bidirectional API integration between the new ERP and Manhattan Active WMS for real-time inventory and billing sync.
- **Training & Change Management:** Delivering train-the-trainer sessions and comprehensive user documentation.
- **Post-Go-Live Support:** Providing 90 days of hypercare support post-deployment.

3. Vendor Information & Qualifications

Bidders must provide detailed profiles of their organization using the format below. Please include this information in Section 1 of your proposal.

Company Name:

Headquarters:

Primary Contact:

Contact Email/Phone:

Years in Business:

Specialties & Certifications

Please detail your firm's technical specialties and relevant vendor certifications. Nexus Logistics requires partners holding elite/gold tier status with the proposed ERP software publisher. Furthermore, ISO 27001 or SOC 2 Type II compliance is mandatory for vendors handling our data migration.

4. Approach Synopsis & Methodology

We require a high-level approach synopsis outlining how your firm manages complex integrations. Proposals must include:

- A detailed project management methodology (e.g., Agile, Hybrid, Waterfall).
- A risk mitigation strategy, specifically addressing business continuity during the WMS API integration phase.
- Quality assurance and User Acceptance Testing (UAT) frameworks.

5. Project Timeline & Deliverable Estimate

We anticipate a project kickoff in July 2026. Vendors must submit a proposed timeline breaking down major phases. Below is our targeted, high-level schedule:

Phase	Deliverable	Target Completion
1. Discovery & Design	Solution Blueprint & Architecture Document	Month 2
2. Build & Configuration	Configured ERP Tenant	Month 4
3. Integration & Testing	API Middleware active; UAT Sign-off	Month 6
4. Deployment	Go-Live & Data Migration Finalized	Month 7
5. Support	Hypercare completion & Handover	Month 10

6. Pricing Information

Vendors must provide a clear, itemized pricing structure in USD. Pricing must be broken down into the following categories:

- **Software Licensing:** 1st-year subscription costs (if reselling) or clearly state if Nexus will contract directly with the publisher.
- **Professional Services:** Fixed-fee or Time & Materials (T&M) with a Not-to-Exceed (NTE) cap for implementation, integration, and migration.
- **Maintenance & Support:** Ongoing managed services or SLAs for post-hypercare support.

Note: All travel and expense (T&E) costs for on-site work must be estimated separately and capped.

7. References

Provide at least three (3) references from clients of similar size and industry (logistics/supply chain) for whom you have completed a similar Cloud ERP integration in the past 36 months. Include Company Name, Project Scope, Contact Person, and Contact Information.

8. Evaluation Criteria

Proposals will be evaluated by the Nexus IT Steering Committee based on the following weighted criteria:

- **30%** - Technical Expertise, Experience, and Vendor Certifications
- **25%** - Proposed Approach, Methodology, and Integration Strategy
- **25%** - Total Cost of Ownership (TCO) and Pricing Transparency
- **20%** - References and Demonstrated Success in the Logistics Sector

9. Submission Guidelines

All proposals must be submitted in PDF format via email to **procurement@nexusgloballogistics.com** no later than the Submission Deadline listed above. Late submissions will not be considered. Vendors may submit clarifying questions up to 10 days prior to the deadline.
